

Please do not overturn the NJ Do Not Call law. Evenings and weekends are much more pleasurable without the annoying calls made during the evening when they know you are home eating Dinner or the early weekend mornings before you go out to run your errands. There is very little information gained from an unsolicited telemarketer call. If we want to learn or purchase something, we can call them and/or do our own research on the internet. On behalf of us, my 85 year-old Dad, and my 85 and 82 year-old inlaws, we ask that you do not overturn the law. Thank you.
